FINAL PAYMENT

MADE ON LOAN

LAST INSTALLMENT FOR LIBERTY BONDS AMOUNTS TO \$400,000.00.

Washington, D. C., Aug. 30.—Nearly \$400,000 was paid in the treasury today in the final installment of the Liberty Loan. Approximately \$1,615,000,000 already has been paid in, representing principal and interest on the Liberty Bonds.

Today's payment completes the financial transaction and it is thought likely that the bonds themselves will be ready for distribution within a short time.

Now that the first loan has been fully disposed of, it is likely that an announcement concerning the second issue of bonds will be made shortly by Secretary McAdoo.

POLES RESENT

TEUTON RULE

COUNCIL OF STATE ABANDONS GERMAN PROTECTORATE PROGRAM.

Copenhagen, Aug. 30.—The Berlin Lokal Anseiger reports that the entire Polish council of state has resigned. The great underlying cause responsible for the council's decision to abandon its attempt to organize a government under the proposed German protectorate is the change in the Polish attitude resulting from the Russian revolution, according to the newspaper.

The direct reasons to be sought, however, are in the great hesitation and delay of the Austro-German powers in intrusting to the Polish authorities the conflict over the Polish army, in which the Germans wish to incorporate their own forces, and German determination to exclude Lithuania from the new kingdom. The Poles insist that the kingdom be proclaimed and have telegraphed Emperor William asking that Vilna be included in the protectorate.

The German main reichstag committee has put its seal upon the government's decision by unanimously approving its plans for separate administration in Lithuania and Courland.

KAISER FAILED

IN THIS PLOT

STORY OF EFFORT TO ENLIST BRITAIN AGAINST AMERICA IS CONFIRMED.

Washington, D. C., Aug. 30.—James Keeley, Chicago publisher, declared today that he had personal knowledge to confirm former Ambassador Gerard's published statement that Germany had proposed to Great Britain a joint intervention in Mexico and an ending of the Monroe doctrine.

"Last winter when in London I read a long editorial in a well informed London paper," Mr. Keeley said, "which stated that England might have had peace any time within the preceding nine months by consenting to give Germany a free hand in Central and South America."

VERBAL PROPOSAL MADE.
"I already had an appointment with the British official mentioned in the article and I asked him whether any such proposal had been made to his government. So far as he knew, he said, it had not been made in documentary form. But he said that it had been made to him personally."

"This official then told me that just before the war started the German ambassador in London had sought an appointment with him for a personal representative and close friend of the kaiser. It was granted."

MEETS FLAT REFUSAL.
The German had not conversed with the British official two minutes when he said:

"Would it not be a good thing for your government and my government to block the evident design of the United States for conquest in Mexico? I am ready to give you the high official assurances that your country and my country would have no difficulty in arranging our respective spheres of influence in Mexico."

"To this the British official replied: 'I had not known you were coming here for such a proposal. Neither I nor my government has any desire to discuss the question. I now bid you good afternoon.'"

TRANS-PACIFIC FAITH

PLEDGED IN SENATE

(Continued From Page 1.)

the air, to those who violate international decency and fair dealing, who misuse the forces of developed science and distort the teachings of philosophy, who would destroy civilization itself in the effort to accomplish world domination."

CALLS KAISER INSANE.
Viscount Ishii addressed the senate in part as follows:

"I grasp this occasion to say to you that the whole people of Japan heartily welcome and profoundly appreciate the entrance of the mighty nation of yours into the struggle against the insane despotism of our civilization. We all know that you did not undertake this solemn task on the impulse of the moment, but that you threw your mighty weight into the struggle only after exercising a most admirable patience with a firm determination that this world shall be made free from the threat of aggression, from that black shadow of military despotism wielded by a nation taught with the mother's milk that human right must yield to brutal might."

"To us the fact that you are now on the side of the allies in this titanic struggle constitutes already a great moral victory for our common cause, which we believe to be the cause of right and justice, for the strong as for the weak, for the great as for the small."

RESPECTS AMERICAN IDEALS.
"We of Japan believe we understand something of the American ideal of life and we pay our most profound respects to it."

"You must be free to be Americans, and we must be free to be Japanese, but our common enemy is not content with this freedom for the nation or for the individual, he must force all the world to be German too."

"We had hoped against hope that this was not so, but that noble hope died and your admirable patience was exhausted. You did not then hesitate to face the issue and foe as you are now facing it, with that great American spirit which has loved and still loves liberty, which loves the right more than peace and honor, more than life."

DENIES SELFISH AIMS.
"We of Japan took up arms against Germany because a solemn treaty was not to us a scrap of paper. We did not enter into this war because we had any selfish interest to promote or ill-conceived ambition to gratify."

"Mr. President and Gentlemen: whatever the critic half-informed of the hired slanderer may say against us, in forming your judgment of Japan, we ask you only to use those splendid abilities that guide this great nation of yours."

JAPAN WANTS STEEL.
Tokio, Aug. 27.—(Delayed)—Great interest is being shown in Japan in regard to what Viscount Ishii, head of the Japanese mission to the United States, was able to accomplish in regard to obtaining relief for Japan's industries in the matter of the embargo on steel exports to the United States. Pressure is being brought to bear upon the government in this connection by ship builders. The newspapers take the view that Japan, a member of the entente, is entitled to steel for her own national purpose.

A statement prepared on behalf of ship builders urges the delivery of 400,000 tons of steel ordered before the placing of the embargo. Contracts have been let for the construction of steamships from this steel.

TEUTONS CELEBRATE

CHAMPION SOLITAIRE

PLAYER IS BACHELOR

Decatur, Ill., Aug. 30.—Charles H. Conklin, veteran Washburn conductor, today completed playing 100,000 games of Canfield solitaire. He has been playing for the past twenty years and kept a record of every game. During all that time he had only one perfect "lay-out" so that he finished with all cards even and in consecutive order. Conklin is a bachelor.

PREPAREDNESS

NAVY'S CREED

ACTIVITIES WILL NOT RELAX, DANIELS SAYS, TILL TREATY IS SIGNED.

Charleston, W. Va., Aug. 30.—Secretary Daniels, speaking here today at the breaking of ground for the government armor plate and projectile plant, declared that America is fighting not only for the democratic nations of the world, but is waging "the battle of the people of the German empire themselves."

"Germany began this war for a place in the sun," said the secretary. It has conducted it with the idea that it must have the place in the sun—and the only place. We believe that there can be no place in the sunshine for any nation on earth underneath the ominous shadow of the Prussian eagle, no sunshine even for the people of Germany themselves."

ACTIVITIES TO CONTINUE.
"Unmoved by possibility of material advantage or conquest, patient amid aggravation and aggression, hoping against hope until the last moment that this madness of the imperial German government would pass away, America has at last drawn her sword, not only for her own rights, not only for her own existence, but for the very existence of freedom itself upon the earth, and that sword will not be sheathed until victory is won."

Mr. Daniels asserted that "in preparing for a terrible war the navy is taking the surest means to bring about an early and effective peace."

"Let there be no fear that rumors of peace or possibilities of a cessation of the struggle will cause us to remit one moment our activities on sea and shore," he said. "Not until the peace treaty is actually signed will we remit one single item from our program of preparation. Our citizens need have no fear that we will be lulled into any relaxation, or deceived by the mirage of peace which is no peace, into slackening of our activities."

DEFENDS ADMINISTRATION.
The secretary declared that the government has been dilatory in providing for its war needs. Had attention been given to the far sighted advocates of preparedness, he said, the country would not have entered the war with wholly inadequate facilities.

"We do not expect the government plants to make all its munitions," he said. "It is best to have competition between government and privately owned plants. Experience has shown beyond question that when the government can make a portion of its munitions, private manufacturers make reasonable bids, but where the government has no plant the prices charged are not competitive and bear little relation to the cost of production."

GUARDS ARREST

MORE I. W. W.

TWENTY-FOUR MEN ARE JAILED ON IDAHO MAJOR'S ORDERS.

Spokane, Wash., Aug. 30.—Twenty-four more alleged Industrial Workers of the World are held in the county jail here today as military prisoners. They were arrested last night when they arrived from Troy, Montana, on a Great Northern train.

These men, with three others who later were released, were held at the city jail until Major Clement Wilkins, in command of the Idaho national guardsmen here, arrived and took them into custody. Major Wilkins declined to make a statement other than that the men would be held as military prisoners.

MOVIE HERO DODGES

DRAFT AFTER FIGHT

Chicago, Aug. 30.—Bryant Washburn, the motion picture actor, was exempted from military service because of dependency today despite the fact that Major B. N. Chipfield, who represented the provost marshal general in Chicago, had advised the local board to deny Washburn's claim. Washburn is married and has a child. He admitted that he is earning \$200 a week and had a bank account of \$5,000.

TEUTON CENSORSHIP

RULES LESS RIGID

Berlin, Aug. 29.—(Delayed)—The reichstag main committee concluded its midsummer session this afternoon and adjourned until the assembling of the full session of the reichstag late next month. The committee was engaged today in discussion of the censorship and martial law. A motion by the social democrats and independent socialists recommending abolition of martial law failed of acceptance.

Resolutions presented by the majority parties, calling for abrogation of the political censorship and containing recommendations for modification of the present censorial restrictions were adopted, as was a recommendation of the coalition parties for nullification of an order of the federal council, dated August 3, subjecting moving pictures to rigid censorship.

PORTS CLOSED TO

BRITISH AGITATOR

Melbourne, Australia, Aug. 30.—Questioned in parliament today concerning a report that James Larkin, head of the Transport Workers Union in England and well known as a strike leader in his way to Australia, Premier Hughes said instructions had been given to prevent the landing of Larkin anywhere in Australia.

MISS KATHERIN STINSON

the aviatrix who is to fly at the Davis county fair on Ottumwa day, Thursday, September 13, did not start her flight from Chicago to New York today as planned. She expects to make the flight in her Curtiss plane tomorrow and plans to make eighty-four miles per hour scattering Red Cross seals and enlistment literature en route.

WILSON CUTS PRICE

FOR WHITE PAPER

Washington, D. C., Aug. 30.—In an order which newspaper publishers declare will serve as an important precedent, President Wilson has fixed a price of 2 1/2 cents on news print paper for use in publishing the government's daily Official Bulletin.

The order fixing the price was issued by Secretary Baker at the president's direction under the national defense act, which empowers the government to commandeer supplies needed for war purposes. It was directed to the International Paper company, which had declined to furnish news print for the Bulletin at less than 3 cents a pound.

Newspaper publishers who learned of the order today voiced the hope that it might open the way for cheaper news print to publishers generally. They called attention to statements by the president that the administration war price policy will be one that provides the same price for the public as for the government.

FRANCE HONORS

VERDUN VICTOR

POINCAIRE BESTOWS THE GRAND CROSS ON PETAIN AT BATTLE FRONT.

Verdun, Aug. 29.—(Delayed)—President Poincaré personally presented today to General Petain, the French commander-in-chief, the grand cross of the Legion of Honor, awarded to him several days ago for the recent successes here. The presentation was made in the Place d'Armes. In his presentation address the president said:

"Our enemies try in vain to disfigure history and spread among neutrals fables made to order. They try desperately to shake off the responsibilities that crush them. In vain do the false news mongers, established in imperial cities, spread clouds of black smoke for a propitious wind to blow across the frontiers. These are dissipated one after another by the rays of truth."

"Convinced herself that she cannot obtain a military victory on our front, Germany takes refuge in a last illusion. She imagines she can overcome us through international crises, and during several weeks past she has announced them noisily. Neither these puerile maneuvers nor the infamous propaganda that accompanies them will succeed in troubling public opinion which will remain worthy of our cause and of the admirable soldiers that defend it."

AUTHOR STIRS

IRISH ANGER

SINGLE PARAGRAPH IN ILLINOIS HISTORY CAUSES FURORE.

Chicago, Aug. 30.—Uncomplimentary references to Irishmen in an edition of "Illinois in 1818" just published for circulation among state officials, libraries and universities, has aroused opposition of many persons of the Irish race.

Speaker David Shanahan, Peter Murphy, of Lincoln and Michael Igou, of Chicago, are among the legislators who are leading a movement to have the offensive paragraph removed.

The paragraph was ordered eliminated in the manuscript, but the matter was overlooked during the illness of Professor C. W. Alvord, of the University of Illinois, editor-in-chief of the book. In the volume it is remarked that the situation in Illinois was similar to that in Missouri described by John Mason Peck, a Baptist missionary who wrote:

"Not a few drunken, profane worthless Irishmen were perambulating the country and getting up schools; and yet they could neither speak, read, pronounce, spell nor write the English language."

PAYROLL BANDITS NAMED BY CAPTIVE
Chicago, Aug. 30.—Working on admissions said to have been made by Charles Carrao, police here believe that they will be able to arrest the remaining three bandits who Tuesday killed two men and escaped with \$8,772 in a spectacular daylight payroll robbery. Anton Coutino, said to have been implicated in the affair, was arrested last night.

Well equipped, trim, alert, determined looking, the soldiers called forth roars of cheers that were almost continuous for the more than six hours that it took the division to march from 110th street to Washington square.

WILSON DISAPPROVES CLASS EXEMPTIONS
Washington, D. C., Aug. 30.—In disapproving a proposal by Representative Shouse of Kansas, that all men engaged in agricultural pursuits last March be exempted from military service, President Wilson today wrote the congressman that a class exemption would lead to many difficulties and many heartburnings. He added, however, that he should like personally all of the genuine farmers left at their indispensable labors.

The president also called attention to Provost Marshal General Crowder's recent arrangement for calling men, whereby most farm labor will not be drafted in service before October 1, when it is believed most of the heavy farm work will be done.

DOCTORS MAY OBTAIN

DRAFT EXEMPTION

Washington, D. C., Aug. 30.—Hospital internes and medical students who have been more than a year at college may be exempted from military service under the selective draft bill, by regulations issued today.
